CORP. BONNEY WRITES FROM NEW CALEDONIA

Corporal Earl Bonney, writer of the following letter, is one of the three grandsons of Mrs. Sidney Jodrey of Bethel, who are in the country's armed services. He is well known to many of the local young people, having attended school here one year and spent several summers with relatives in town. He arrived in Australia with the first U. S. forces early this year, later being transferred to New Caledonia. This letter was received last week by his cousin, Edward Little Jr., of Bethel.

July 5, 1942
New Caledonia

Dear Ed,

I received your letter today that you wrote on the 12th of May. That is going some, now isn't it old pal.

Well, Ed quite a number of things have happened since I last wrote to you and to tell the truth I don't know where to begin—but here goes!

We had some boat ride as you must know by now and finally landed in Australia.

I passed through the Panama canal locks and believe you me, it was a study in itself. The heat was intense at that time and all around the locks there were fellows, both black and white.

After sailing for days and days, we passed the international date line and started losing time until we had dropped a day. It was a little difficult getting regulated all over again but we did and then we passed the Equator. I really expected it to get warmer as we got closer but I guess that that just holds true on land. More so (that) than on sea. We had a little celebration or initiation for some with Old Neptune at the head.

There were games, swimming and work for all on board and let me tell you that the water was salty at times.

We finally arrived at Australia and was it good to see land? YES! I wasn't seasick tho but land really did look good.

We had a swell train ride and stopped at a fair sized place where we were to stay for a while. It was the first time any soldiers had been billeted and we stayed with some swell people. We didn't stay but a few days but I enjoyed it very much.

I met a couple "Aussie" soldiers and we exchanged things to all in all I have a few souvenirs. I have a couple of crowns. (money)

After we left here, we sailed again and landed on a very interesting little island.

French is about the only language spoken here but there are several races that speak it, and I might add several colors. Half black and half white.

The people here live in grass houses, mud huts, houses made of "nialoi" bark and bamboo. We helped 4 of them make huts for us in one area.

There's plenty to eat in the line of fruit as there are tangerines, lemons, oranges, citrons, limes, bananas, pineapples, coconuts and other native fruit's I don't know the name of.

I took French up in school too so I can still speak a little.

Here's something for Doc. and you too.

I went out deer hunting one day and saw 200 in a herd. What do you think of that? It was long range shooting but we did get six. And on one trip we killed a wild boar.

Just last Sunday, Sumner and I went out again and we got three. One that I got was eaten by a wild dog.

Today we had a big review to

SURPRISE BLACKOUT SHOWS GOOD RESULTS IN VICINITY

The first surprise air raid warning and blackout took place last Thursday evening and the officials reported very satisfactory results. Some of the local personnel were absent and others were unable to get to their stations, but traffic was handled very effectively and in most cases the same cooperative spirit as previously was shown by motorists. The fire department responded to two calls during the blackout period and an emergency ambulance run was made.

FAREWELL SURPRISE PARTY GIVEN BRADLEY HALL

Bradley Hall, son of Mr. and Mrs. Norman Hall, who left Wednesday for Fort Devens, Mass., for induction into the Army, was given a surprise party Friday evening at the Methodist Church following a choir rehearsal. Mrs. Leroy Hamlin read an original poem and Rev. M. A. Gordon presented Bradley a gift in behalf of the group.

Those present included Rev. and Mrs. M. A. Gordon, Mrs. Leroy Hamlin, Mrs. P. J. Clifford, Mr. and Mrs. John Anderson, Mrs. Harry Lyon, Mrs. Ralph Berry, Mr. and Mrs. Norman Hall, Ruth Hall, Miss Eugenia Haselton, Miss Elizabeth Lyon, Miss Herbertina Norton, Miss Sylvia Bird, Harold Anderson, Edwin Brown, Irving Brown and Maurice Brooks.

sort of celebrate the 4th. There were about 25 spectators.

I have gained weight, have a swell tan and am feeling great. Am all set to go off Berlin's jump right this minute. Am only kidding, but I do feel swell.

Your pal,

Earl

HARRY MACKAY WILSON, M.D., who left Bethel Monday afternoon to begin training Wednesday at Carlisle Barracks, Penna. Last month the doctor received his commission as Captain in the Army Medical Corps. He and Mrs. Wilson came here from Berlin in September, 1932, living first in the Dr. I. H. Wight residence on Main Street. During these 10 years Dr. Wilson has enjoyed a large practice and, with his family, has many friends who wish him all success in his new step. Mrs. Wilson and children, Barbara and Harry Jr., will remain at their home on Elm Street.

BIRTHDAY PARTY

Mrs. O. A. Pratt entertained at dinner Saturday in honor of the ninth birthday of her son, Gerald. Those present were Theodore Colant, Theodore Chadbourne, Laurie Lord, Rogers and Gerald Pratt.

LESTON WHEELER FALLS IN BARN—NOW IN HOSPITAL

Leston Wheeler of Northwest Bethel sustained several broken ribs and a brain concussion Friday afternoon when he fell from a hay mow. He is reported to be making a good recovery at the Rumford hospital.

DANA M. RAND

Dana Mansfield Rand of Bethel died Saturday evening at the C. M. G. Hospital, Lewiston, where he had been a patient for seven weeks. He was born at Randolph, N. H., Nov. 3, 1873, the son of Stephen and Caroline Leighton Rand.

As a young man he was a guide in the White Mountain region. After coming to Maine, he married Miss Maizie Stowell of Bethel, who died last year. He was in business for some time at Mechanic Falls, returning to Bethel several years ago, and for the past four years has been employed at Gould Academy.

He is survived by three children, Clifford and Walter of Auburn, and Marion, wife of Lester Enman of Bethel; two brothers, Leroy, of Limerick and Morris of Peris, Calif.; two sisters, Ethel, of Exeter, N. H., and Alvord of Susanville, Calif.; four grandchildren; and several nieces and nephews.

Funeral services were held Tuesday at the Greenleaf funeral home. Burial was at Riverside Cemetery.

BETHEL AND VICINITY

Miss Barbara Brown of East Fryeburg was the guest last week of her uncle and aunt, Mr. and Mrs. E. Leroy Brown.

Mr. and Mrs. George Bowhay and Mrs. Ordell Anderson and two daughters returned Monday from a vacation at Pemaquid.

ARTIFICIAL RUBBER—AND OIL INDUSTRY

Some extremely false ideas concerning the oil industry and the artificial rubber program seem to be making the rounds. These ideas were forcibly answered in a recent statement by J. A. Brown, president of the Socony-Vacuum Company.

First, the charge that the oil industry has "blocked" the production of butadiene (a basic ingredient rubber manufacture) from alcohol made from agricultural products, is unfounded. To quote Mr. Brown: "The paramount interest in the oil industry is to have as much rubber as possible available to the public. Most of its profits, and in many instances its very existence, are dependent on a large consumption of gasoline, which in turn, is conditioned on an adequate supply of rubber. Where that rubber initiates... is of little commercial interest generally to the oil industry. A most striking confirmation of this is their great effort, at their own expense and without profit, to gather scrap."

Still another misconception lies in the belief that the government is giving the oil companies tremendous sums of money to build rubber plants for their own profit. To quote Mr. Brown again: "The general policy is for the government to build and own plants and for oil companies to operate them without profit."

In short, the oil industry wants to see rubber produced in the swiftest, most practical way. And the government is trying to decide which way is best.

HOLT-POULIN

Mr. and Mrs. Joseph M. Poulin of East Wilton announce the marriage of their daughter, Shirley, to Raymond W. Holt, son of Mr. and Mrs. William G. Holt of Bethel. The ceremony took place at the Congregational parsonage July 26, Rev. H. T. Wallace officiating. The couple was accompanied by their parents, the bride's sister and husband, Mr. and Mrs. Edwin Parker of Wilton; Mrs. R. F. Dietrich and Joseph W. Holt of Andover, Mass., sister and brother of the groom.

Mrs. Norman Ford, sister of the groom, made a beautiful wedding cake which was served after the wedding at the home of Mr. and Mrs. William G. Holt before a large family gathering.

Mrs. Holt attended Wilton Academy, and Mr. Holt attended Gould Academy. Mr. Holt has employment at Wilton. The couple will reside at the home of the bride's parents at present.

POWELL'S HAVE FIVE SONS IN UNCLE SAM'S SERVICE

Local people will note with interest the following extract from a recent issue of the Augusta, Ga., Herald which accompanied pictures of Mr. and Mrs. T. C. Powell of that city. Mr. Powell is employed at the Augusta arsenal and one of their sons, Cluace T. Powell, married Miss Pauline LaRue of Bethel.

"Mr. and Mrs. T. C. Powell of Walton Way Extension, have five good reasons to be particularly proud parents, and these reasons are in the form of five sons who are in the armed service of the United States.

"Corporal Herbert L. Powell is in the Marine Air Corps at St. Thomas in the Virgin Islands. Charles E. Powell is in the Navy somewhere on the high seas. Corporal C. T. Powell Jr. is a drill instructor in the Marine Corps at Parris Island, S. C., while Ralph B. Powell is with a parachute battalion in the Canal Zone, and Lester E. Powell is also in the Marine Corps."

A WEEK of The WAR

The U. S. overall output of planes, tanks, ships, guns and ammunition during June was nearly three times that of last November, the month before Pearl Harbor, War Production Chairman Nelson reported. Mr. Nelson stated, however, "too much boasting about production progress is altogether premature the biggest part of the job is still ahead." Any letup now, he said, "would mean years more of war and hundreds of thousands more lives."

Rationing
Price Administrator Henderson reported gasoline coupon counterfeiters had been peddling bogus ration books in the East and stated these "saboteurs attacking our war program" will be prosecuted promptly and vigorously. All persons found to be in possession of the counterfeit books, he said, are liable to have their regularly issued ration books either revoked or withheld. Because of delays in obtaining gasoline rationing books, the OPA said service stations may sell gasoline on a "coupon credit" basis until midnight July 31.

The OPA increased tire and tube quotas for August and said 80,000 bicycles will be made available for rationing in August as compared with 45,000 in July. The Office said only trucks engaged in services essential to the war effort or public health and safety will be entitled to reappor or new tires after July 28 under a drastic revision of the tire rationing regulations.

The War Front

The Navy reported U. S. submarines in the Eastern waters have sunk another Japanese destroyer, a medium transport, three cargo ships, and possibly a fourth cargo ship. The Navy said all of

its large submarines are being fitted with cameras designed to fit over the eye piece of the periscope to record the results of submarine attacks on the enemy. Maj. Gen. Lewis H. Brereton, Commander of the Air Forces in the Middle East, said American air forces caused heavy damage to enemy docks and port installations at Tobruk, Benghazi, Suda Bay and Crete.

President Roosevelt said Admiral William D. Leahy, former U. S. Ambassador to Vichy France, has been called back to active duty to serve as Chief of Staff to him as Commander in Chief of the Armed Forces. Gen. MacArthur reported from Australia that the new 2,500 man Japanese invasion force landed in the Buna-Ambasi-Gona area in New Guinea on July 22 has been subjected to such damaging raids that few, if any, Japanese ships are left in the vicinity of the invasion. The Navy announced 17 more United Nations merchant vessels have been lost to enemy submarines.

Army
The nine Army Corps Areas were reorganized and renamed "Service Commands." The reorganization will further decentralize the operation of Services of Supply activity and eliminate duplicating facilities. War Secretary Stimson said 28,000 jaundice cases developed among Army personnel in the U. S. and abroad between Jan. 1 and July 4, apparently due to the use of yellow fever vaccine. Sixty-two deaths resulted. "There has been a change in the form of yellow fever vaccine now used which the Surgeon General thinks will eliminate the whole trouble," Mr. Stimson said. Director Hobby of the Women's Army Auxiliary Corps said 20 companies of 150 women each

will be trained by the end of this year and 25,000 women will be trained by April 1943.

Taxation and Profits

The House passed and sent to the Senate the War Revenue Bill, estimated to yield about \$6,300 million, providing a 45 percent normal and surtax income rate on corporations and a 90 percent excess profits tax. Treasury Secretary Morgenthau, however, said a tax program of less than \$8,700 million of additional revenue would be inadequate. He recommended removal of these "special privileges": tax exemption for state and municipal securities, exemption from taxation of 27 1/2 percent of income from oil wells and mines and separate income tax returns by married couples.

The House Naval Affairs Committee, after investigating 40,000 contracts, said "95 percent of the war contractors are doing an honest and effective job and receiving only fair and reasonable profits," the average being 8 percent.

Scrap Salvage Campaigns

President Roosevelt reported the recent scrap rubber collection drive added 454,000 tons to the Government's stockpile exclusive of rubber in small piles at service stations and junk dealers. The WPB extended the tin can salvage program to 104 cities in addition to 36 metropolitan areas previously announced, because de-tinning plant capacity requirements have been increased from 250,000 to 400,000 tons. The Board said the Government will requisition from junk dealers all useless automobiles—those that cannot be repaired on a practical basis to maintain the present peak movement of automobile scrap to mills.

ECONOMIC HIGHLIGHTS

National and International Problems Inseparable from Local Welfare

Some of the most thoughtful Washington observers have been much troubled lately by the power and aggressiveness displayed by certain pressure groups which are hard at work grinding their axes in the capital. Theoretically, the nation is now unified, with all citizens determined to do their ut-

most to help win the war. In actuality, a good many citizens seem more concerned with how they can use the war to serve their own ends, and how they can avoid as much personal sacrifice and inconvenience as possible.

Labor in a number of basic industries is demanding substantial wage increases, despite the obvious fact that higher pay for workers must result in higher costs and higher prices all along the line—thus putting into effect an infla-

tionary spiral that in the long run would hit labor as hard and perhaps harder than any other group.

The heads of some of the big farm organizations, despite their patriotic speeches, are fighting tooth and nail for more and bigger subsidies—and they are implacably resisting any and all attempts to place workable ceilings on farm prices. If these groups win out—and they have tremendous influence in a Congress which is largely made up of men from agricultural areas—still another inflationary spiral will be well underway.

Incidents have been unearthed where certain business interests put their own wishes ahead of the needs of the nation. However, it is generally true that the record of industry in this war has been excellent. Furthermore, industry of all kinds is regulated and controlled to the hilt by the government—which is not true of either labor or agriculture.

Taxpayer groups are also extremely active in Washington, and all of them, with a few honorable exceptions, seem to be trying to figure out ways and means to make the other fellow pay for the war. They are all for sacrifice—so long as someone else does the bulk of the sacrificing.

The blackest picture of all, in the view of many writers, is found on Capital Hill itself. Next November, all of the members of the House and a third of the members of the Senate will be up for reelection. There are, of course, congressmen who are not swayed by political considerations—who are doing their best, and who refuse to play old-fashioned politics-as-usual in attempts to make certain of holding their jobs. Unfortunately for the nation, there are a good many congressmen, in both parties who seem to be thinking almost exclusively in terms of votes. They don't want to step on the toes of

their constituents. They don't want to awaken them to the unpleasant realities that total war involves. They don't want to vote for bills which will make their constituents have to go without things. They are, in short, seeking to please all groups and all interests—and that means that they are doing their best to either dodge difficult issues or to straddle the fence.

Some of the election campaigns now taking place are, in the view of men who grasp the world situation, almost literally sickening. Political job-seekers are flagrantly pandering to special interests—to labor, agriculture, pension seekers, etc. They treat the war as a sort of side show—in the face of the obvious fact that we and our Allies have as yet not taken back a single inch of conquered territory, and the Axis is making tremendous progress on the most vital battlefronts. Every authority is convinced that if we lose this war, we will be subjected to virtual slavery. We'll get precisely the same treatment the people of France, Belgium, the Netherlands and other beaten nations have been given. That is the issue which some of the most active seekers after high office are busy dodging now.

It can be argued that such things as this will inevitably happen in a democratic country—in a country where anyone has a right to speak his mind, no matter how empty and misguided that mind is, and here anyone can advance himself as a candidate for almost any office he chooses. It can be argued that these "democratic weaknesses" could conceivably lead to our defeat in war. About the only cure for this kind of politics is public opinion. Next November, the people will elect a Congress which, in all probability, will run the country until the war is over. This will be one of the most fateful elections in all our history.

Some United Nations disasters can be laid straight at the door of the high commands. Too many of the Generals seem to think in terms of "classic warfare." That was a relatively leisurely kind of warfare, and it was developed and perfected in the days when tanks and planes and similar machines were minor weapons.

The Germans and the Japs think in terms of dynamic warfare. They are daring. They take long chances. They use the weapon of surprise to the limit.

Libya provides a tragic example of that. As Newsweek says, "British generals figured it would take Rommel a week to ten days to thrust past the Egyptian frontier after the British withdrawal. It took him a matter of hours."

Germany has also been superior in the science of logistics—which simply means the handling of supplies. They have moved more equip-

Kidneys Must Work Well-

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

3. THE ELECTRICAL SYSTEM

The efficiency of the electrical system has a direct effect on gasoline consumption. A fouled spark plug, an unadjusted distributor or generator, a defective coil or condenser, or a worn cable cause gasoline loss just as surely as a hole in the tank. Many of these parts, as well as the battery and light bulbs, will have to be replaced during the life of the car. But their life and efficiency can be considerably lengthened with proper attention.

FACTS	SERVICING
UNDER-CHARGED BATTERIES may freeze even in mild winter weather. Insufficient distilled water in batteries can cause serious damage.	Twice a year, in the Spring and Fall, have the entire electrical system checked by your dealer. Have him:
WORN OR BROKEN electrical cables, in addition to creating a fire hazard, weaken the spark, causing power loss, gasoline waste.	Clean and adjust spark plugs.
ONE DEFECTIVE PART of the electrical system affects all others if not repaired in time.	Clean and inspect all cables.
	Check battery and recharge (if necessary).
	Check and clean generator.
	Check and adjust ignition system.

The SNAPSHOT GUILD

PICTURING PICNICS

An apple for the teacher? Perhaps—but in any event a grand shot of a picnic. Concentrate on action studies if you want to make this type of picture.

NO SUMMER is complete without its share of picnics, and a picnic isn't a real success without some snapshots. So today let's see how we can make better snapshots to highlight those occasions.

Suppose we take "action," that is—people doing things—as the keynote of our project. Action pictures pack three times the punch, and are always far more interesting than the old-fashioned type of "still" picture in which everyone stood smiling at the camera.

If you concentrate on action, you can, for instance, get a picture of dad giving an exhibition of the "boarding house reach" as he stretches for another sandwich. You might, in another case, catch the youngest member of the family peering cautiously from behind a tree to see if the coast is clear as he plays "hide-and-seek."

To make a completely rounded story of your photographic efforts, approach the subject just as a good

news photographer might if he were out on a feature assignment. Start with a shot showing the folks putting the lunch basket into the car. If a stop is made on the way to the picnic to buy more provisions—shoot that. And be sure to get a general view of the scene, so that when other people see your pictures they will have an idea of the locale.

After that, of course, you can photographically follow whatever happens. Try to catch the folks informally—as in our illustration—while they're preparing the meal, eating, playing games, or even just sitting around talking. Don't encourage people to look at the camera—unless you particularly want such a shot. Tell them to look at what they are doing, or have them look at each other, and you'll get the best results.

Finally, take lots of snapshots. Every shot may not turn out as you expected, but that way you'll be certain to get many good ones.

THE TRUTH ABOUT THE AIRLINES

A good many people seem to have gained the impression that the government has taken over the Commercial Airlines—and that you can't travel by air unless you are armed with a Federally-issued priority certificate.

Fortunately, for the welfare of the country, there is no truth in that. The fact is that the airlines are still under private ownership and private operation. They have turned over a considerable number of their transports to the military services—but they are still operating 165 airplanes in scheduled service.

If you wish to travel by air you can still do so, precisely as you can send your letters and your express by air. It is obvious that not every plane can be filled to the limit with blueprints, war cargo or big short officials. The planes run on strict schedules, and anyone is perfectly free to make a reservation. There may, of course, be instances when all the seats are taken. But that has happened in the past, and the situation is not greatly different now. While some lesser routes have been abandoned for the duration, the transports are still flying their principal routes and will continue to fly.

The fact that transport service is still available to civilians is a

tribute to the airlines' efficiency. In a recent 7-day period, for example, it was anticipated that 70 planes would have to perform work for the Army exclusively. In actuality, only 29 planes were so engaged because those 29 planes were operated with so little delay and waste that they did the entire scheduled job.

Naturally, war needs come first with the airlines, as with all other businesses. But the rumors that the airlines are now a government operation, and can no longer serve civilians, are completely unfounded. America's fine system of private commercial air transport is not hamstrung and is serving the nation as never before.

Washing Colored Clothes
CAN you be philosophic when a gray print comes out of the wash looking like a faded flower? I can't. It's even more discouraging now, when the national watchword is "I'll take good care of everything I have." Here is a way to treat colored clothes so they'll keep their good looks:

Unless a garment bears a label guaranteeing color fastness, test a sample in a tumbler of lukewarm water. If the water is tinged with color, watch your step on washday. No soaking, no matter how dirty the garment. Instead, wash it as fast as you can in lukewarm soapy water, give it three quick rinses—one lukewarm and soapy, and two clear, cool rinses—run through the wringer hurriedly, roll in a bath towel and dry in a breezy, shady spot. Don't let it touch fast-colored clothes.

Tub-fast fabrics which are ex-

ceptionally dirty can stand a five or ten minute soaking in either clear or soapy lukewarm water, but don't prolong it. Use new suds. Beware of too-hot water, and be as quick about washing and wringing as is consistent with thoroughness. Follow with one slight suds rinse and two cool rinses in large amounts of water.

There's nothing like a little starch as a tonic for colored clothes—it puts the crispness back. Always dry the clothes in the shade, preferably where there's a fair breeze, because colors that are tub-fast aren't always sun-fast. Even when they are, a scorching sun on a wet garment gives the color a run for its money.

Miss Lilla Stearns has purchased the interest of Miss Bradbury in the millinery business of Bradbury and Stearns on Main Street and will conduct the business alone. Mrs. Bradbury has returned to her home in West Paris.

Berlin, N. H.—The first car ran over the electric road last Thursday, and it was estimated that at least 800 enjoyed a free ride.

JULY 27, 1917

D. T. Durell went to Portsmouth, N. H., Saturday where he has entered the Portsmouth Navy Yard as a machinist.

Messrs. Lee Holt, Leslie Coburn and Winfield Howe of Co. D, Augusta, spent the week end with their parents.

Fritz Goddard has purchased Albert Frost's house on High Street and is preparing to occupy it.

Locke Mills—Leslie Davis is home from his work as mail clerk for a few days. . . . Rev. J. H. Little of Bethel delivered an interesting sermon at the church, Sunday.

Many Maine farmers chuckle when their home economists tell them to grow more kale, because they think of kale as a weed pest. But the weeds most farmers call kale are really wild mustard, wild radish, black radish, or relatives of these. Cultivated kale, the kind for vitamins and vitality, is an altogether different plant. One of its great advantages is that it can be left "on the stump" until it is needed, even after snow flies.

ROUND MOUNTAIN GRANGE

Round Mt. Grange P. of H. No. 162 met at their hall in regular session, July 20 at 8.30 P. M.

Meeting opened with W. M. Leon Kimball in chair. After the routine business the Lecturer presented the following program:

The mid-summer sale of the Ladies' Club will be held in Garland Chapel Aug. 13. A thrift shop and war-time cooking will be added features. There will be usual display of gifts, aprons, presents for children and home made candy.

MIDSUMMER NOTES FROM THE PARISH

Here is an important notice for Waterford and vicinity. The Waterford Church Services will be held during August at 10 a. m. Please note this well and tell your friends. The change will come on Sunday, Aug. 2, instead of on Aug. 3 as first suggested.

Remember also that on the 7th will be held the Center Lovell Fair. As that is one of THE events of the season you want to keep it in mind, and be present next Friday afternoon. Remember also that on the following Thursday, the 13th, East Stoneham will be looking for your patronage at their sale, also.

Here is another important note for Sunday, the 2d. Unless you hear definitely to the contrary, it looks as though there would be no service at North Waterford. The North Congregation is cordially invited to Waterford or to East Stoneham.

There was a good social at the Albany Vestry, Monday evening of this week; and such a good time was had by all that some more will be scheduled in the near future. In the meantime remember that Albany folks will be pleased to have you eat supper with them next Thursday evening.

Mr. Bull and family are expecting to be at Phippsburg, at their camp for the most of August.

Another of our older friends has gone from us. Gene Kilgore had lived for the last year or two at Paris, with his daughter; but Waterford still claimed him as a highly esteemed citizen and neighbor, and mourns his passing.

JACKSON-SILVER UNIT, No. 68

The American Legion and Auxiliary are making a drive to collect old phonograph records which will be reclaimed and made into new records for the use of our boys in the service. Containers have been placed in each town and an effort will be made to canvass everyone. However, it would help if those who have records to contribute would notify some member of the Post or would deposit them in the collection box at some local store.

The Auxiliary is also making a drive for the contribution of new or used playing cards. Those who wish may make cash donations for the purchase of cards. These, too, are for the entertainment of the men in our services who find it impossible to keep supplied. This appeal applies to YOU as well as your neighbor. You have read it in the daily papers and heard it over the air but what have YOU done about it?

The next regular meeting of Jackson-Silver Post and Unit will be held on Aug. 7. Plans will be completed and a date set for the annual Field Day.

GET WOOD READY NOW
TO USE NEXT WINTER

The possibility of transportation difficulties and delays this fall and winter makes it advisable for every family to plan now for an ample wood supply, says A. D. Nutting, forester in the Maine Extension Service.

Mr. Nutting points out that Maine has more than an ample supply of fuel-wood to supply the needs of Maine families. The problem confronting both woodland owners and wood users is that of cutting and transporting the wood where it is needed.

Dry wood is a much more satisfactory and efficient fuel than green wood, and the time to cut fuelwood so that it can be partially dried is short. Wood cut in August and early September, however, will be much better for fuel this winter than wood cut later in the fall. Mr. Nutting recommends that farmers have their own supply of dry wood on hand well in advance and store some additional wood to help out in an emergency.

Some New England towns and villages have fuelwood committees, he says, to list names of village people who wish to buy stumpage and cut their own wood after working hours. These committees also list names of woodland owners with stumpage to sell. Cutting bees have helped the situation in other towns.

When fuelwood is properly cut Mr. Nutting says, it will not only supply fuel but also improve the forests of the state by removing undesirable trees.

Home owners can help by placing their orders for fuelwood now. This helps to show the amount needed. Persons who can do their own cutting should be on the lookout for stumpage and start cutting soon if the wood may be needed this winter. All who can use wood are asked to do so to lessen the load on transportation facilities.

Woodland owners are advised to mark the trees to be cut so that a better timber crop will result. Mr. Nutting reminds cutters that it takes less time to cut a cord of wood from large trees than from small ones. Owners can also help themselves and their customers by advertising their stumpage in local papers.

WE'RE IN THIS THING TOGETHER

The war came right home and sat on my doorstep the other day. I had invited company for dinner and expected to clean the whole house in the morning. But at 9 o'clock the vacuum cleaner broke down. I phoned all over town but couldn't find anyone to fix it. So I went to work with a broom, as women used to before vacuum cleaners had been invented. Then about noon Bessie Brown, who'd promised to come and help me get the dinner telephoned to say she'd taken a job in a war plant, and a little later the bakery sent word they wouldn't have any of the cakes I counted on because of the sugar shortage.

I wanted to jump in the car and drive down by the lake for a few minutes to cool off and recover my poise. But our tires are too old to permit even a mile of unnecessary driving. So I walked over to Aunt Matilda's to tell her my troubles.

"I know, I know," she said comfortingly, "things like that can be terribly annoying; but less so now than usual."

"Less so?" I exclaimed.

"Yes, because they're due to the war and they're going to happen to everybody before it's over. We're all in this thing together," she reminded me, "and nobody is going to be completely comfortable or have all of everything she wants

while it lasts because the manufacturers who produced all our conveniences and luxuries have another job to do these days."

"I see what you mean, and of course I can use a broom with a lot better grace because Jane is having to ride a bicycle instead of going in their car which is already grounded for the duration, and Helen is going to have to use stoves in place of that oil furnace this winter."

"That's right. You aren't glad of their hardships but it makes your own a lot easier to take because they're having troubles too. But just as all 130 million of us are going to have to put up with inconveniences for the duration, we're all going to make up for it later on."

"You mean when the war is over?"

"Yes. Can you imagine what these same manufacturers will do for us then? Their plant capacity has been expanded tremendously the last few months in order to produce the flood of war materials we need now. It takes my breath away when I think what they'll be able to do with all that capacity when they begin on commodity production again! They'll be able to make enough things for all of us and a lot of the rest of the world besides."

FRENCH FIGHT FOR FREEDOM

FREE FRANCE brings important contributions to the United Nations' struggle for freedom. Under its sovereignty are territories with a total area of more than 1,000,000 square miles and a population of 7,000,000. They are Equatorial Africa, Cameroon, Tahiti, New Caledonia, St. Pierre and Miquelon and five harbors in India. These territories are rich in nickel, chromium, as well as rubber. They also control strategic routes from the United States to Australia and to the Middle East. Syria and Lebanon, which Free French forces helped to wrest from Vichy rule, hold a strategic position near the oil wells of Iraq. The Free French Army of 100,000 men, all volunteers, proved their mettle at Bir Hacheim, where for 17 days they repulsed 13 Axis assaults. A Free French fighter squadron in Britain has an official record of 51 victories. There are also several Free French fighter and bomber squadrons in Egypt and Syria. On the sea, the Free French are aiding the United Nations' cause with 50 naval vessels, including some of the fastest destroyers afloat. Meanwhile 125 merchant ships add 600,000 tons of valuable cargo space to the convoys that supply our armies around the world, in Africa, Ireland and the Middle East.

Free French forces, stationed in Egypt, bore the brunt of Rommel's offensive in early June, repulsed Axis at Bir Hacheim.

Syria fell to combined British and Free French armies. Cameroons, desert-hardened fighters, deserted Vichy, joined de Gaulle.

Saint-Pierre and Miquelon, French islands off Canada, rallied to Free French, voted to drop Vichy and accept de Gaulle's aims.

The advertisements of Bethel merchants on this page provide a weekly display of their merchandise, like another show window, for the convenience of Citizen readers.

It is good business for our advertisers to do this.

It pays our readers to buy the goods offered by these merchants whenever possible, and it pays our advertisers to tell their story here each week.

And only through the continued mutual cooperation of reader, advertiser and newspaper is it possible to maintain the Citizen in the interest of the community.

LOCKE MILLS

Mary Mills, Correspondent

There will be a Food Conservation meeting Friday afternoon at 1:30 at the home of Mrs. Wesley Kimball. Our Work Must Satisfy

Business and social stationery, or any form of printed matter, is an accurate reflection of the taste and standing of any person or company. Thus it behooves one to see that all their needs in this line are cared for correctly.

In many cases good printing costs but little if any more than slipshod work. Workmanship, choice of paper and typography are matters which depend very much upon experience, and this experience often leads to economies of production which may result in lower prices for superior results.

In any case, why not consult us first?

"Love" is the subject of the Lesson-Sermon that will be read in all churches of Christ, Scientist, on Sunday, Aug. 2.

WEST BETHEL UNION CHAPEL
Rev. Don Effe, Minister

Come join your friends and neighbors in an evening of entertainment at your Church on this coming Wednesday, Aug. 5, at the 8 o'clock hour. We will all sing some of our favorites together, and then enjoy some solo numbers by guest artists. Then, before refreshments are served, we will review three reels of colored moving pictures, supplied by the Maine Development Commission, titled: Tuna Fishing, Autumn in Maine, and Winter Sports. Plan to come, and invite your friends.

Members and friends of the H. School Fellowship visited the cloud capped top of Mt. Washington last Monday. The party of 18 ascended through Tuckerman's Ravine, and returned by way of the carriage road. Those who joined in the good time were: Marilyn Abbott, Beverly Kneeland, Frederick Kneeland, Colleen Bennett, Ruth McInnis, Kenneth McInnis, Phyllis Morrill, Donald Morrill, Albert Smith, Arlene Davis, Betty Morrill, Malzle Kincaid, Ivan Garey, Richard Walker, Cleveland Lovejoy, Lawrence Kendall, Maurice Kendall, and Rev. Don Effe. This same group met Thursday evening at the home of Mr. and Mrs. Thomas Burris at which time they were led in their thinking and discussion by Edmond J. Vachon of Gould Academy. The theme followed was: "Choosing My Vocation."

In our Union Chapel Sunday School, with an enrollment of around 30 children, Arlene Davis has taken over the beginners' class in the absence of Ruth Walker. Too, Mrs. Fred Lovejoy has consented to substitute for Mrs. Ruby Rolfe, teaching the Juniors for two Sundays. The entire Sunday School is learning by heart the books of the New Testament.

At our worship service Sunday at 11 a. m. we shall consider the place of "faith" in our living these hectic and topsy-turvy days, centering our attention on the topic: "Wings of Faith." "On a branch that swings, sits a bird that sings, because it has wings." At 7:30, the Lord's Prayer series: "Give us . . . daily bread."

GILEAD CONGREGATIONAL CHURCH

Rev. Don Effe, Minister
A message meaningful to you and your everyday living is brought to worshipers in the Gilead Church every Sunday evening as the sun begins to set, around 8 o'clock. Our turnouts lately have been improving. Come, sing some of the old hymns of the church while Mrs. Daniels accompanies us at the organ. Join in a restful and inspirational evening of worship and meditation. We know it can make a difference in your life, if you'll let it. Be with us Sunday evening.

And, too, if your children are not taking advantage of our 11:15 Church School each and every Wednesday, plan to send them next week. Following our one-hour class period we join in games on the park grounds and then eat our sandwich lunches together. It can mean a lot to your children why not see that they come and join us?

AN APPRECIATION

"We know that he will awake
And smile as he did yesterday;
And he will have some gentle word
to say,
Some kindly deed to do, for loving
thought

Was warp and woof of which his life was wrought.
He is not dead. Such souls forever live
In boundless measure of the love they give."

Irving L. Carver, a good neighbor, a loyal friend, a fond husband and a loving father, has been called Home. Bethel will miss this genial man who for years has been identified with the progress and welfare of the town.

Eulogy is but an echo of the thought of all for every one was his friend. His quick smile and cordial greeting were part of Broad Street and his place of business. His relations with his employees were those of brotherly interest and concern. His first thoughts were for the welfare of others and his community.

Mr. Carver's principles were high and his instincts true. He was a man of high moral courage and when once he had tested his decisions and determined those which seemed to him to hold the greatest good for those he might serve, his perseverance in their fulfillment was unswerving. Each and every influencing factor was considered from its many aspects before he began any venture; once begun he never looked back and as he looked forward he thought first always of doing each thing well.

Toward the adored members of his family his devotion and pride were unbounded. He gave to them of his strength and love without measure. Their companionship was his dearest possession.

Largely attended funeral services were held from the Congregational Church on Sunday afternoon; Dr. H. T. Wallace led in tribute. In the beautiful and peaceful Riverside Cemetery beside the Androscoggin river and beneath the unchanging hills, he was laid at rest. Floral offerings of loving people covered the burial lot.

CARD OF THANKS

John B. Vall, retiring chairman of the trustees of the N. Newry Church, wishes to thank all who so kindly gave money to paint the church. Through their kindness Mrs. Vall was able to turn in \$44.00 to paint the church and use the remainder as the board sees fit.

BROOKS-BEAN

The home of Mr. and Mrs. Herbert I. Bean was the scene of a pretty wedding Sunday evening, when their daughter, Muriel Edwina, was united in marriage with Rodney Warren Brooks, son of Mr. and Mrs. Clyde Brooks, The double ring ceremony was performed by Rev. M. A. Gordon. Decorations were effectively carried out in pink and white.

The bride's gown was of white silk sheer trimmed with satin ribbon. Her coronet was of orange blossoms, and she carried a bouquet of white roses. The bridesmaid, Miss Violet Brooks, sister of the bridegroom, wore blue taffeta and carried a bouquet of pink roses. The best man was Maurice Brooks, brother of the bridegroom. Gailey Ann Brooks, the flower girl, was dressed in pink as also was Nancy Gibbs of North Andover, Mass., who carried the rings in a white satin basket.

The wedding march was played by Mrs. Robert York, sister of the bride, whose gown was of blue organza. Mrs. Harvey Jones of Lewiston, sister of the bride, who wore green taffeta, sang "I Love You Truly" and "O Promise Me." Mrs. A. W. Bowden, another sister of the bride, had charge of the guest book.

A reception followed the ceremony. Those assisting in serving were the Misses Alice Bean of Old Orchard, Esther Jones of Lewiston and Kathleen Brooks of Bethel. The bridegroom's gift to the bride was a pearl necklace.

Mr. and Mrs. Brooks left on a short wedding trip to Massachusetts. The bride's traveling costume was a figured blue silk gown with matching accessories.

Mrs. Brooks is a graduate of Gould Academy in the class of 1942. Mr. Brooks attended Bethel schools and is employed by L. E. Davis.

Among the out of town guests were: Mr. and Mrs. Wendell Gibbs, Nancy Gibbs, Mrs. David Burnham of North Andover, Mass.; Mrs. Harvey Jones, Roland Jones, Miss Esther Jones of Lewiston; Mr. and Mrs. A. W. Bowden, Mr. and Mrs. Merle Perry of Rumford; Miss Alice Bean of Old Orchard; Mr. and Mrs. Roy Wardwell of Albany.
